

All children will be encouraged to explore the world around them, using methods of scientific inquiry to answer their questions and grow their understanding of the world. Children will be encouraged to build their science capital, develop their confidence to explore and consider how they can use science in their lives both now and in the future.

Science teaching and learning in our school is good when ...

Children have fun in science lessons

Lessons are related to children's interests and their lives

Children learn practically, interacting with real life objects

Children have input into the curriculum, working with professionals to tailor it to their needs

Children share their ideas without fear of making mistakes. Misconceptions are identified and addressed

- Pupil voice
- Curriculum
- Monitoring
- Sharing Good Practice
- Self Evaluation
- School Development Plan
- Research and CPD
